

Here Comes the Sun

Graziella Scicluna

Kalkara Primary - Year 2

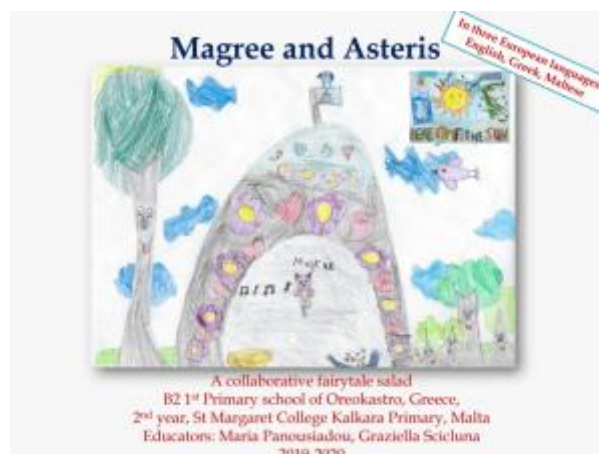

Description

This is a collaborative ebook created by the students from both classrooms using two storybooks as inspiration (The Ray Weaver and The Sunbread). This was part of the e-twinning project 'Here comes the Sun'

About the collaborative fairytale salad (a creative writing technique)

- "Magree and Asteris" was created during the implementation of the eTwinning Project "Here comes the Sun" by 2nd grade partner classes from Greece and Malta.
- The name *Magree* is a combination of two partner classes countries, *Malta* and *Greece*. The name "Asteris" in Greek means "Star".
- It was inspired by two books "The Ray-Weaver" by Vassiliki Nevrokapi and "Sun bread" by Elisa Kleven. Pupils formed interschool working groups of authors and illustrators. They mixed characters from the two books and came up with new characters to create their own collaborative story.
- We hope you enjoy our fairytale!

Maria Panousiadou, class teacher 1st Primary School of Oreokastro
Graziella Scicluna, class teacher, St Margaret College Kalkara Primary.

Το χωριό / Il-villagg/The village

Χαμηλή πτήση/ Tittjira baxxa/ Low flight
